My dear Mr. Cooke

I am much
pleased
to hear
that the
new Friend Cha.
Sutton, is also a
Scientific Man as well
as a
Beautiful Preacher

it's practice perfectly
I am known as
as the 26th Inf. Texas
Some friends come
here, when I have
more than settled
for a few months,
& then put getting
all straight-
I have left Head-
Quarters altogether-

have been more as
Aide-de-Camp to
D. Wells & worked
I hope some day
this may - if I
do not obtain my
to find my way
to Connaught
keep & the same
reasons you will
find you have
been - It will give
